# Instructor

Director **Jonathan Raine**, Partners in Training (UK)

**Jonathan Raine** is the Director of Partners in Training, a UK-based company that focuses on professional development within the healthcare sector. Jonathan divides his time between designing and delivering inspirational training and working with clients to understand and overcome learning and development challenges.

Working closely with pharmaceutical companies, institutions, and academia, Jonathan's professional interests are in medical and scientific communication and leadership.

His communication work in the medical sector covers many situations in which a person interacts with an audience, including coaching and rehearsing the delivery of high-quality keynote presentations, working with postdoctoral clinical teams, developing investigator and results meeting speaker teams and facilitating advisory board sessions.

Jonathan is often asked to deliver keynote talks on both face-to-face and virtual communication.

**Partners in Training** has over 40 years of international experience in designing and delivering high-quality, bespoke training and professional development programmes. Their international experience within the pharma, medical and academic sectors is extensive.
